Dear Parents,

This month we will celebrate the character trait **caring**. With a pandemic going on, it behooves all of us to take care of ourselves, our family and our neighbors.

The hardest part of this year is not having all of our students, parents and community members in the building. It is also difficult not being able to take field trips nor have our monthly parent activities. I am praying that next year, we will once again be able to bring these activities back.

One thing we can not do is let the ball drop on educating our students. If we don't remain serious about making sure they are learning, they will continue to get behind.

Please help us by demanding that they study and read daily, learn their multiplication facts, and how to add and subtract. Learning does not stop when school is out. Having a routine to help your child can make a huge difference in their learning. You have the power to make a difference. Please use that Superpower.

Order from our store to support our school. Proceeds go to MHW PTO
