**Academic**  Know those multiplication facts! Students will be assessed throughout the year.

In order to meet this criteria, students must complete a 100-fact multiplication assessment (facts 0-12) with 90% accuracy in TEN minutes. Here are some great ways to study for our weekly assessments:

- Study multiples
- Flashcards
- Online resources
- Xtra math—this site helps students practice all basic facts
- Practice Timed Assessments

**Character**  Set a goal! A huge part of being an IB school is showing the attributes of the IB Learner Profile. To meet this requirement, students will choose an attribute to improve. Once students decide they have met their goal, they will share their progress by writing a paragraph that reflects their experience. Here are our IB Learner Profile Attributes:

- Open-Minded, Caring, Reflective, Balanced, Inquirer, Thinker, Principled, Communicator, Risk-Taker, Knowledgeable

**Teamwork**  Perform action at school or in your community! You can do this on your own or with a partner/group/organization. In order to meet this requirement, students must provide evidence in the form of a written reflection, PowerPoint, poster, or any other presentation method chosen by the student. *Evidence must include pictures of the student(s) taking action. Here are some suggestions:

- Clean up litter in your community.
- Send a thank you to service members.
- Create care packages for those who are homeless.
- Help out at an animal shelter.
- Collect donations in lieu of birthday gifts.
- Create busy bags and activity packs for local children’s hospitals.
- Donate out grown clothes to a shelter.
- Thank first responders with tasty treats.
- Write cards/letters for nursing home residents.
