Dear Parent or Guardian:

Spartanburg County School District Seven makes the responsibility of providing a safe school environment that supports a positive educational experience for all students a priority. The Student Behavior Code provides procedures which support and enhance the learning environment. The procedures are designed to encourage and foster positive social behavior, while establishing appropriate consequences for unacceptable behavior. We expect students to conduct themselves in an orderly, courteous, dignified and respectful manner. This requirement refers to their actions toward other students and teachers, their language, their dress and their manners.

Students and parents should carefully read the Student Behavior Code so they will clearly know what is expected. The policy will be enforced on school property during regular school hours, as well as other times or places where teachers and school administrators have students under supervision. The times and places include, but are not limited to, all school sponsored programs, field trips, and athletic events.

Please read carefully the requirements for attendance and the South Carolina Compulsory School Attendance Law. These guidelines explain and define the legal aspects and consequences of absenteeism. In addition, you are being provided rules pertaining to the Discipline Code, rules and regulations related to the Dress Code and School Bus Transportation, and the Policy IJNDB: Technology Resources and Internet Acceptable Use Policy. Violations of such policies, rules and regulations will result in disciplinary actions.

You are asked to have the student(s) for whom you are responsible return the signed form to the school. If you have more than one student in our district, please sign one for each. Your signature means you and your child have read the Student Behavior Code, understand the policies and rules/regulations that will be enforced, and will help to provide a safe and successful learning environment for all students. If completing a hard copy signature at the end of this code, please return the signature page to school by Wednesday, August 31, 2022.

If you have any questions, please call your child's school principal. A cooperative partnership with you will ensure all children in District Seven will have a successful year. Thank you for your support.

Sincerely,

Mr. Jeff Stevens
Superintendent

POLICY GOVERNING SUSPENSION AND EXPULSION

A student can be suspended or expelled for commission of any crime, gross immorality, gross misbehavior, persistent disobedience, or for violation of written rules and regulations established by school administration, Board of Trustees, or the State Board of Education, or when the presence of the student is detrimental to the best interest of the school. An expelled student has the right to petition for re-admission for the succeeding school year. Expulsion does not necessarily preclude enrollment and attendance at adult or night school.

When a student has been suspended or expelled, the student shall not attend school, participate in attend school sponsored activities, use school transportation, or enter the school grounds during period of suspension or expulsion. This also applies during an appeal of a suspension or expulsion. In Spartanburg School District Seven, students returning from the Department of Juvenile Justice with ankle monitors will be referred to the Spartanburg County Alternative School WFLC Virtual Program.

SUSPENSION OF STUDENTS

1. The Principal of a school may suspend a student for not more than ten (10) days for any one offense and for not more than thirty (30) days in any one school year, under the following conditions:
The student shall not be suspended during the last ten (10) days of a school year if the suspension will make the student ineligible to receive credit for the school year, unless the presence of the student constitutes an actual threat to a class or to the school or a hearing is granted within 24 hours of the suspension.
2. In many cases, the alleged misconduct may be informally discussed with the student minutes after it has occurred. The student may have an opportunity to give his/her version of the facts at this discussion, being first told what he/she is accused of doing and the basis of the accusation. If the Principal finds the presence of the student poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, the student may immediately be removed from school. The notice of opportunity for explanation should be given to the student as soon as practicable, after the suspension has been imposed.
3. If the parent/guardian can be contacted prior to the suspension, the Principal or Assistant Principal should give him/her a report on the misconduct, the number of days of suspension, and the appeal procedures.
4. Following suspension, the school administration will notify in writing the parent/guardian, stating the reason for the suspension, and setting a time and place when the administrator will be available for a conference with the parent/guardian.
5. Following a conference, the parent/guardian may appeal the suspension to the Office of Student Services.
6. A staff member designated by the Superintendent or an Assistant Superintendent may act in the absence of a Principal.

***Suspension days are only counted when school is in session. A suspension occurring on an inclement weather day when school is not in session will not count. Schoolwork missed during a suspension can be made up.**

EXPULSION OF STUDENTS

1. A student may be expelled by the Superintendent of schools under the direction of the Board of Trustees after receiving notification of an opportunity to be heard.
2. A hearing shall be conducted by the Superintendent, Assistant Superintendent, Hearing Officer or by the Principal of the school in which the student is enrolled to determine the facts and circumstances surrounding an incident or offense alleged to have been committed by a student. The parent/guardian of the accused student shall be notified in writing of the time and place of the hearing, the name and title of the person before whom it is to be held, and

the incident or charge to be investigated. The hearing shall take place not more than fifteen (15) days following mailing or delivery of the written notification to the parent/guardian.

3. At the hearing, the student and his/her parent/guardian shall have, without expense to the district, the right to legal counsel and the right to question all witnesses.
4. As soon as possible, but not later than 10 days after the hearing, the hearing officer shall render a decision.
5. The decision of the Superintendent to expel a student may be appealed to the Board of Trustees. Any appeal to the Board of Trustees shall be heard at its next regular monthly meeting, but not sooner than five (5) days after the notice of such appeal has been given. The appeal request shall be in writing and may be addressed to the Board of Trustees, in care of the Superintendent. The appeal may be heard at any other time by agreement of the Superintendent or designee, and the student or his/her parent/guardian or their attorneys, and the Board of Trustees.
6. The student shall, unless otherwise ordered by the Principal or the Superintendent, be suspended from school and from all school activities during the time of expulsion procedures.
7. The Board of Trustees may permanently expel any incorrigible student.
8. RE (Recommended Expulsion) and possible criminal charges filed.

Note: Any student with serious criminal charges pending may be subject to recommendation for expulsion.

ATTENDANCE

1. Students are required to bring written documentation for absences as soon as they return to school.
2. All requests for a lawful absence must be submitted within five (5) school days from the day of absence to be considered.
3. Parents' notes will be accepted, but limited to five (5) occurrences per semester. Thereafter, doctors' notes will be required.
4. Absences with no documentation will be considered unlawful.
5. Students who exceed attendance limits (3 consecutive unlawful or a total of 5 unlawful absences) will be truant. Parents/Guardians will be contacted to develop a written intervention plan. Failure to adhere to the plan could result in a referral to Truancy Court.
6. Students must be in school more than half the day to be counted present.

Section 59-65-10A. Responsibility of parent or guardian

All parents or guardians shall cause their children or wards to attend regularly a public or private school or kindergarten of this state which has been approved by the State Board of Education or a member school of the South Carolina Independent Schools' Association or some similar organization, or a parochial, denominational, or church-related school, or other programs which have been approved by the State Board of Education from the school year in which the child or ward is five years of age on or before September first until the child or ward attains his seventeen birthday or graduates from high school. A parent or guardian whose child or ward is not six years of age on or before the first day of September of a particular school year may elect for their child or ward not to attend kindergarten. For this purpose, the parent or guardian shall sign a written document making the election with the governing body of the school district in which the parent or guardian resides. The form of this written document must be prescribed by regulation of the Department of Education. Upon the written election being executed, that child or ward may not be required to attend kindergarten.

Section 59-65-20 of the Code of Laws of South Carolina allows a penalty for failure to enroll or cause a child to attend school. The law reads as follows:

Any parent or guardian who neglects to enroll his child or ward or refuses to make such child or ward attend school shall, upon conviction, be fined not more than **FIFTY DOLLARS (\$50.00)** or be imprisoned not more than **THIRTY DAYS**; each day's absence shall constitute a separate offense; provided, the court may in its discretion suspend the sentence of anyone convicted of the provisions of this article.

TRUANCY

Truancy is any intentional unauthorized absences from compulsory schooling. The term typically describes absences caused by students of their own free will, and usually does not refer to legitimate “excused” absences, such as ones related to medical conditions. It may also refer to students who attend school but do not go to classes. **Truancy includes excessive tardies and early dismissals.**

TARDY AND EARLY DISMISSAL POLICY

Arrival to School and Early Dismissals	Consequences
1-5	Attendance alert letter
6-15	Attendance alert letter requesting conference for tardiness
Excessive	Tardiness Improvement Plan (TIP) meeting with school officials
Excessive	Referral to Truancy Court with 5 additional days tardy, after TIP

BEHAVIOR CONSEQUENCES

The student may be punished according to its nature and degree at the discretion of the administration. All final disciplinary actions are left to the discretion of the administration. Additional consequences will apply when students are uncooperative. **All consequences will be age or developmentally appropriate.**

Students who fail to abide by the rules cited above while riding a school bus will be given a referral indicating his/her misbehavior. This referral will be given to the school principal/assistant principal and issued to the student by the principal/assistant principal. Disciplinary offenses related to school bus transportation will be treated in accordance with the district code of conduct as approved by the Board of Trustees. We want your child/children to arrive safely at school and return home safely each day. Your cooperation with this policy is helpful in our accomplishing this.

TECHNOLOGY RESOURCES/INTERNET ACCEPTABLE USE POLICY

Policy IJNDB

Purpose

To establish the board's vision and the basic structure for the use of technology resources in instruction.

Technology is a vital part of education. In an effort to promote learning and expand educational resources for students, the district provides a variety of technology resources for students and staff.

The district's goal in providing these resources is to promote educational excellence by facilitating resource sharing, communication and innovation.

The purpose of the district's educational network is to support research and education in and among academic institutions by providing access to unique resources and the opportunity for collaborative work. All use of the Internet and network must be in support of education and research and consistent with the educational objects of the district. Use of other networks or computing resources must comply with the rules governing those networks. Transmission of any material in violation of any federal or state laws or regulations is prohibited. This includes, but is not limited to, copyrighted material, threatening or obscene material or material protected by trade secret. Access to computer systems and networks owned or operated by the district imposes certain responsibilities and obligations on users and is subject to district policies and local, state and federal laws.

Technology access

Because technology is a vital part of the educational process and the curriculum of the district, students and staff will be provided access to the Internet. By providing this access, the district intends to promote educational excellence in schools by allowing access to resources unavailable through traditional means. The district provides this instructional resource as an educational tool for staff and students and its use will be governed by this Internet acceptable use policy. The failure to follow this policy or responsibilities may result in the loss of privileges or other disciplinary measures. With access to computers and people all over the world also comes the availability of material that may not be of educational value in the context of the school setting. The district has taken precautions to restrict access to controversial or inappropriate materials; however, on a global network it is impossible to control access to all materials and an industrious user may discover controversial information. Users (and parents/legal guardians of students who are users) must understand that neither the district nor any district employee controls the content available on outside systems. The district firmly believes that the valuable information and interaction available on this worldwide network far outweighs the possibility that users may procure material that is not consistent with the educational goals of the district.

The smooth operation of the Internet network relies on the proper conduct of the end users who must adhere to strict guidelines. These guidelines are provided so that students and staff are aware of their responsibilities when using the Internet. All staff and students must abide by the generally accepted rules of network etiquette, including the following:

- Vandalism is prohibited. Vandalism includes any malicious attempt to harm or destroy data of others. Vandalism also includes, but is not limited to, the uploading or creation of computer viruses, deletion or alteration of other user files or applications, removing protection from restricted areas.
- Never access or attempt to access inappropriate or restricted information not directly related to the educational purposes. Restricted information includes obscene, libelous, indecent, vulgar, profane or lewd materials, advertisements or services not permitted to minors by law; insulting, fighting and harassing words; and other materials which may cause a substantial disruption of the academic environment.

- Do not be abusive in messages to others. Profanity, vulgarities or other inappropriate language is prohibited. Illegal activities are strictly forbidden. Do not disrupt, harass or annoy other users.
- Documents, electronic mail, chat room messages and any other form of direct communications may not include a student's Social Security number or any other personally identifiable information that may lead to the identity of one's self or others. For example, do not reveal personal home addresses or phone numbers to others.
- No student pictures (video or still) or audio clips will be published without permission from the student's parent/legal guardian. No original student work will be published without permission from the student's parent/legal guardian.
- Electronic mail is not guaranteed to be private. People who operate the system have access to all electronic mail. Messages relating to or in support of illegal or inappropriate activities will be reported to the appropriate authorities.
- All communications and information accessible via the network should be assumed to be private property. Always cite all quotes, references and sources. Users may not reproduce copyrighted material without permission.
- All subject matter on district web pages will relate to curriculum, instruction, school-authorized activities or to the district. Neither students nor staff may publish personal home pages as part of district web sites or home pages for other individuals or organizations not directly affiliated with the district. All pages on the district's server(s) are property of the school district.
- Use of the Internet is for educational and educational support activities only. Users may not use the system for financial or commercial gain.
- All work should be proofread so as to avoid spelling and grammatical errors.
- Always follow the instructions of the supervising staff members.
- No user of the system may use the system to make an unauthorized disclosure or use of, or otherwise disseminate, personal identification information regarding minors and/or students.
- No user of the system may send messages or information with someone else's name on it or misrepresent the source of information entered or sent.
- No user of the system may send messages or information that is inconsistent with the school's conduct code or assist others to violate that code.
- No user of the system may distribute addresses, home phone numbers or other personal information which could then be used to make inappropriate calls or contacts.
- No user of the system may engage in "spamming" (sending an annoying or unnecessary message to large numbers of people).
- No user of the system may purchase something which requires a credit card number and obligates a student or school to provide payment to another party without consent of the supervisor.
- No user of the system may access or attempt to access and/or alter information in restricted areas of any network.
- No user of the system may download or load any software or applications without permission from the building network administrator or system administrator.
- No user of the system may violate the confidentiality rights of other users on any network.
- Failing to report abuses or other conditions that may interfere with the appropriate and efficient use of school resources will result in disciplinary actions.

Technology protection measures

In compliance with the Children's Internet Protection Act (CIPA), 47 USC § 254(h), the district uses technological devices designed to filter and block the use of any of the district's computers with Internet access to retrieve or transmit any visual depictions that are obscene, child pornography or "harmful to minors" as defined in the CIPA. Adult users of a district computer with Internet access may request that the "technology

protection measures” be temporarily disabled for valid educational research purposes or other lawful purposes not otherwise inconsistent with this acceptable use policy.

Internet safety policy

Prior to accessing the Internet, students and staff must receive instruction on the appropriate use of the Internet. In addition, parents/legal guardians will be required annually to sign a permission form before students will be allowed access to the Internet. Students also must sign a form annually acknowledging that they have read and understand this policy, that they will comply with the guidelines set forth herein and that they understand the consequences for violating these guidelines. Employees must sign a similar acknowledgement form.

Email, phone and Internet usage

The district will monitor email, phone and Internet activity and may disclose the content and/or details when, in the district’s sole discretion, there is a business need to do so. Employees and any students granted email accounts should not expect that email messages, even those marked as personal or accessed by a personal ID, are private or confidential.

Email, phone and Internet usage should be used only for business/educational purposes. The district reserves the right to monitor personal use to the same extent that it monitors business use. Use by employees of the district’s communication system constitutes consent to monitoring. Continued use of the system is conditioned on acceptance of and strict adherence to the district’s policies. Failure to adhere to policy requirements may result in discipline or dismissal.

Employees should exercise the same restraint and caution in drafting and transmitting email messages as when writing a formal memorandum on district or school letterhead. Users should assume that messages will be saved and reviewed by someone other than the original addressee.
