November 11, 2019

To the Board of Trustees and Citizens of Spartanburg County School District 7

State law requires that all school districts publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby submit to you the comprehensive annual financial report of Spartanburg School District 7 for the fiscal year ended June 30, 2019.

Our CAFR is divided into four sections: introductory, financial, statistical, and single audit. The introductory section includes the letter of transmittal, a list of the Spartanburg School District 7 School Board members and principal officials, and the organizational chart. The financial section includes the independent auditors' report, management's discussion and analysis, and basic financial statements including the notes. In addition, the financial section provides supplemental data on the combining of individual funds. The statistical section provides selected financial and demographic information, generally presented on a multi-year basis.

The report consists of management's representations concerning the finances of SD7. Consequently, management assumes full responsibility for the completeness and reliability of all the information present in this report. To provide a reasonable basis for making these representations, management of SD7 has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of SD7's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, SD7's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material aspects.

Spartanburg School District 7's financial statements have been audited by McAbee, Schwartz, Halliday & Co. The role of the independent auditor is to audit the financial statements to determine if the basic financial statements are free of material misstatements and to assess the accounting principles used. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an

unmodified opinion that Spartanburg School District 7's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with accounting principles generally accepted in the United States of America (GAAP). The Independents auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of Spartanburg School District 7 was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing the Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The Single Audit is presented following the statistical section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Spartanburg School District No. 7's MD&A can be found immediately following the report of the independent auditors.

ORGANIZATIONAL STRUCTURE

Spartanburg School District 7 is one of seven districts in Spartanburg County. The district is a consolidated unified system formed in 1950 when six smaller local districts were formed into one district. Similar consolidations were done throughout the county to form the other six districts. SD7 operates a system of schools primarily for grades kindergarten through twelve.

Spartanburg School District 7 is governed by a nine-member Board of Trustees. Programs and policies are established by the publicly elected Board that serve 4-year terms and meet on the first Tuesday of each month except in July and December.

Spartanburg School District 7 operates 9 schools. SD7 each day challenges and inspires over 7,100 young people in grades K-12. In addition to 5 elementary schools, 2 middle schools, 1 high school, and 1 K-8 school, the district is financially accountable for the McCarthy Teszler School, a countywide school for special education students, and the Spartanburg County Alternative Education School. SD7 shares Daniel Morgan Technology Center with Spartanburg School District No. 3, a jointly governed organization. SD7 offers several other educational programs including Spartanburg County Adult Education, and an Early Learning Center for 4 year-old kindergarteners. SD7 has expanded its early childhood education program by partnering with Meeting Street Academy. Meeting Street provides early childhood and elementary education to students from 3K to 5th grade. In addition, the District partnered with First Steps and Early Head Start to open a birth – K4 facility, The Franklin School.

ECONOMIC CONDITIONS AND OUTLOOK

Spartanburg County is an international melting pot with a history of Scotch-Irish, German and Indian traders of the mid-1700s to its international growth of German, Swiss, Japanese, Indian, Asian, and British companies of today. Spartanburg continues to be a model in world class economic diversification. Spartanburg County is shifting from a county with a high concentration of textiles to one with international firms from diverse industries to sustain economic growth and development. The high concentration of international firms in Spartanburg County has provided national and international exposure to the area as well as a new foundation for economic growth.

The unemployment rate in the county for August 2019 was 2.7%, while statewide in South Carolina it was 3.2% and in the United States 3.7%. Job creation in the City of Spartanburg has risen over the last decade especially with the continuation of downtown redevelopment. Spartanburg's location, access to the interstate system, investment in the high-end technology industry, educational institutions, and the redevelopment of the City of Spartanburg will create economic growth and opportunities for its citizens.

In prior years the district has seen a reduction in student enrollment. However, the last several years we have seen a trend of stable enrollment and most recently increases in our student population. This decline in previous years was expected based on housing trends within the area and was also budgeted for accordingly. Even with the stable trend data recently, the district still cautiously budgets student enrollment. The district projects a stable enrollment again in 2020 with over 7,100 students entering our learning environments.

The majority of the district's elementary schools, including the high school, were built in the 1950's to 1960's with renovations in the 2000's. Information on the specific age of each facility can be found within the Statistical Section of this document.

MAJOR INITIATIVES

In line with Spartanburg School District 7's mission to inspire and equip our students to live meaningful lives of service and leadership in a global world, we have worked to ensure all academic initiatives are aligned with our mission.

During the 2018 – 2019 School year, our focus continued to be on literacy and using best practices working with all children. Because of this focus, our goal was to build capacity for growth and sustainability with our districtwide Reading Recovery program. Through Clemson University we trained our second Reading Recovery Teacher Leader to assist with training teachers on the Reading Recovery model. In addition, our focus was on using a consistent progress monitoring tool in grades k5 – 5th grades. iSTATION, a computer assisted, adaptive digital tool was implemented and appropriate training provided. Continued training on using our Fountis and Pinnell (F&P) classroom kits with an added phonics component was also a strong focus and a commitment to implementing with fidelity was a priority.

Another focus was to develop our data warehouse by building the data files we need to monitor progress and to implement Response to Intervention (Rtl). Our warehouse is EdInsight and a focus was to ensure there was a well-trained support person in each school. Our Rtl Coordinator took the lead on this project and worked with administrators and reading coaches to improve our data monitoring skills using EdInsight.

In addition to literacy, we have worked hard to ensure we are addressing all areas of the Profile of the South Carolina Graduate. Our many academic, co-curricular and extracurricular programs help to ensure that our students are equipped with the World Class Knowledge, the World Class Skills and the Life and Career Characteristics as outlined in the profile. A few examples of programs working to meet these criteria are STEM, Arts Infusion, Project-Based Learning, International Baccalaureate, and leadership.

LONG-TERM FINANCIAL PLANNING

Spartanburg School District 7 remains financially sound and has managed its educational programs within its available resources. The district, with the passage of Act 388 by the state legislature, a property tax relief law on owner occupied property, must maintain its fund balance since the district will become more dependent on more volatile state revenue funds generated by sales tax as a replacement for those property taxes. The district has taken the approach that all funds available for important programs must be considered in not only providing the programs, but assuming that sustainability for future funding is present. The district continues to monitor staff levels to be proportionate to the student population levels and program needs. As the district continues to assess its current and future resources, there is a continuing review of programs and resources that can support them.

The district continues to do projections of resources, especially local taxes. The City of Spartanburg, with its efforts to revitalize downtown, has provided for economic growth which, in turn, will benefit the district's revenue base. This growth is spreading from the district tax increment and positively affecting development in the City of Spartanburg, both in residential and commercial projects.

CAPITAL IMPROVEMENT PROGRAM

Following a comprehensive facility study, capital improvement plan approved by the Board of Trustees, and a \$185,000,000 referendum approved by the community, the District began construction of two new state-of-the-art schools: a new elementary school and a new high school. The plan includes renovation of the former Spartanburg High School for a middle school and this work began in August 2019.

Drayton Mill Elementary School, with a capacity of 800 students, opened in August 2018.

Site work began in January 2017 on the new state-of-the-art high school designed for 2,100 students, with a core capacity for 2,500 students with an estimated cost of \$128

million. The new Spartanburg High School opened for students in August 2019. The stadium opened September 27, 2019. The Arena is scheduled to open October 30, 2019. The Theater is scheduled to open in late December 2019.

Plans to renovate the existing Spartanburg High School to create a new McCracken Middle School with an estimated cost of \$11.6 million and an opening date of August 2020 are underway. The Office of School Facilities (OSF) visited the site and approved the plans. The South Carolina Department of Transportation (SCDOT) visited the site in October 2018 for the purpose of reviewing the traffic patterns, which were approved. Teachers have reviewed the plans and provided feedback to the architects. Construction (via asbestos removal and demolition) began in June 2019 with final completion set for July 2020.

Site and playground improvements began in FY14 at Pine Street Elementary School and continued through FY18. In FY18, the third part of a four phase program for improving the building envelope, HVAC and energy upgrade began at Pine Street Elementary and was completed in August 2018. This program included energy efficient windows and installation of a 4-pipe HVAC system. The fourth and final phase will be bid in January 2020 and will be completed by August 2020.

Renovations at Duncan Park Stadium began in FY13 and were completed in FY19. These improvements include, infrastructure improvements, seating, sidewalks and participant/spectator safety items as well as locker rooms.

All state-owned and district-owned busses were equipped with a two-way radio system. Many bus cameras were added or replaced as well.

In the athletic and performing arts area new equipment was purchased.

In the academic area, the District continued to invest in ActivPanel technology. Every classroom in the district received this new technology. The district's one-to-one initiative continues with every student in grades 5-12 being issued a MacBook Air.

BUDGETARY CONTROLS

The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Trustees. Activities of the general fund and debt service fund are included in the annual appropriated budget. Capital projects funds are budgeted on a project basis. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and to provide the means by which spending activities are controlled. SD7 also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. As demonstrated by the statements and schedules included in the financial section of this report, SD7 continues to meet its responsibility of sound financial management.

CASH MANAGEMENT POLICIES AND PRACTICES

Spartanburg School District 7 has an aggressive cash management program that consists of expediting the receipt of revenues and prudently investing available cash in obligations collateralized by instruments issued or guaranteed by the United States Government or State of South Carolina. Total interest earned in 2018-2019 was \$48,832 in the General Fund. The interest earned in 2017-2018 was \$60,846 in the General Fund. Given the extremely low investment rate environment, the district is as aggressive as possible with investments, and within State law, yet gives consideration for liquidity in the event of short or late payments from other entities.

RISK MANAGEMENT

Spartanburg County School District 7 monitors its risk exposure through the office of the Assistant Superintendent for Planning. SD7 carries property, casualty, and workers compensation insurance with Surry Insurance and the South Carolina School Boards Association Insurance Trust, respectively, which maintains a self-insurance pool subscribed to by the majority of districts in South Carolina.

PENSION/RETIRMENT PLAN

Substantially all SD7 employees are members of a pension plan. The South Carolina Public Employee Benefit Authority administers five public pension plans; four are defined benefit plans and one is a defined contribution plan. The Public Employee Benefit Authority is a division of the South Carolina State Budget and Control Board.

The Systems' defined contribution plan offers retirement and disability benefits, cost of living adjustments, life insurances and survivor benefits. The plan's provisions are established under Title 9 of the SC Code of Laws. Comprehensive Annual Financial Reports containing financial statements and required supplementary information for the system is issued and publicly available by writing the SC Public Employee Benefit Authority, P.O. Box 11960, Columbia, SC 29211-1960.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Spartanburg County School District Number 7 for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2018. In order to be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the District was also awarded The Association of School Business Officials International Certificate of Excellence in Financial Reporting for the comprehensive annual financial report for the fiscal year ended June 30, 2018. This award is the highest form of recognition in school financial reporting issued by the Association of School Business Officials International (ASBO). We believe our current CAFR continues to meet the Certificate of Excellence in Financial Reporting program's requirements and we are submitting it to the ASBO to determine its eligibility for the award.

We would like to express our sincere gratitude to the entire staff of the Finance Division who participated in the preparation of this report and to our independent auditors. McAbee, Schwartz, Halliday & Co. Appreciation is extended to the Board of Trustees and the administration, whose continuing support is vital to the financial health of the school system.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Spartanburg County School District No. 7 ("the District"), Spartanburg, South Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United State of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United State of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Spartanburg County School District No. 7, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Trustees of Spartanburg County School District No. 7 Page Two

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedules of the District's Proportionate Share of the Collective Net Pension Liability, Schedule of the District's Proportionate Share of the Collective Net OPEB Liability, Schedules of the District's Contributions and the Budgetary Comparison Schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Spartanburg County School District No. 7's basic financial statements. The introductory section, combining and individual fund schedules, other schedules required by the South Carolina Department of Education, statistical section, and the schedule of expenditures of federal awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund schedules, other schedules required by the South Carolina Department of Education, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules, other schedules required by the South Carolina Department of Education, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

To the Board of Trustees of Spartanburg County School District No. 7 Page Three

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2019, on our consideration of Spartanburg County School District No. 7's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the Effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Spartanburg County School District No. 7's internal control over financial reporting and compliance.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

Introduction

It is a pleasure to present the financial information of Spartanburg County School District No. 7 (SD7). This section presents management's discussion and analysis of the overall financial information of SD7 during the fiscal year ended June 30, 2019. We encourage the reader to consider this information in conjunction with SD7's transmittal letter, financial statements, and notes to the financial statements to enhance their understanding and use of the financial statements.

Financial Highlights

On the governmental activities financial statements:

- SD7's total liabilities and deferred inflows exceeded total assets and deferred outflows on June 30, 2019 by \$96 million. This is primarily due to the net pension liability and net OPEB liability reported by the District for its proportionate share. For additional information, please refer to the notes to the financial statements.
- O Governmental activities have a negative unrestricted net position balance of \$204 million. This is due to the net OPEB liability that was recorded with the implementation of GASB No. 75, and the net pension liability that was recorded with the implementation of GASB No. 68 related to Accounting and Financial Reporting for Pensions. For additional information, please refer to the notes to the financial statements.
- The District's net position increased by \$80,837 or 0.08%. Program revenues accounted for \$56,674,259 or 43.2% of total revenues and general revenues accounted for \$74,593,508 or 56.8%.
- o Total expenses increased \$1,122,128 from \$130,064,802 in fiscal year 2018 to \$131,186,930 in fiscal year 2019.

On the fund financial statements:

- SD7's expenditures and other financing uses exceeded governmental fund revenues and other financing sources by \$21,376,868 primarily due to the various construction projects going on throughout the District.
- SD7's general fund revenues and other financing sources exceeded expenditures and other uses by \$1,815,240. The General Fund total fund balance was reported as \$14,040,999, an increase of 14.8% from June 30, 2018.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

Using the Basic Financial Statements

The financial section of this annual report consists of three parts: (1) management's discussion and analysis, (2) basic financial statements, (3) other supplementary information.

SD7's basic financial statements consist of two types of statements, the government-wide financial statements and the fund financial statements, each with a different perspective of SD7's financial condition.

- Government-wide financial statements include the Statement of Net Position and the Statement of Activities which provide a broad, long-term overview of SD7 finances;
- Fund financial statements include the balance sheets and statement of revenues, expenditures, and changes in fund balances of the governmental funds that provide a great level of detail of revenues and expenditures and focus on how well SD7 has performed in the short term in the most significant funds; and
- The notes to the financial statements explain some of the information in the financial statements and provide more detailed data.

This report contains other supplementary information in addition to the basic financial statement themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the readers with a broad overview of the SD7's finances, in a manner similar to private sector business. The Statement of Net Position and the Statement of Activities provide information about the activities of the school district, presenting both an aggregate and long-term view of the finances. These statements include all assets and liabilities using the accrual basis of accounting. This basis of accounting includes all of the current year's revenues and expenses regardless of when cash is received or paid.

The <u>Statement of Net Position</u> presents information on all of SD7's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between the two reported as *net position*. Increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The <u>Statement of Activities</u> presents information showing how net position changed during the year. All changes in the net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the related cash flows*. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in the future fiscal period (e.g., uncollected taxes and earned but not used vacation leave).

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

To assess SD7's overall health, other nonfinancial factors such as the property tax base, current property tax laws, stability of state revenues and facility conditions should be used in arriving at their conclusion regarding the overall health of the District.

Fund Financial Statements

The fund financial statements provide more detailed information about SD7's funds, focusing on its most significant or *major* funds – not the School District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

- Some funds are required by State Law and by other regulations.
- The School District established other funds to control and manage money for particular purposes (such as repaying its long-term debt) or to show that it is properly using revenues (such as capital projects).

The School District has two kinds of funds: Governmental and Fiduciary Funds.

Governmental Funds

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year for spending in future years. Such information may be useful in the evaluation of government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

SD7 maintains 8 significant governmental funds: General Fund, Special Revenue-Special Projects, Special Revenue-Spartanburg County Alternative School, Special Revenue-McCarthy-Teszler School, Special Revenue-Education Improvement Act, Special Revenue-Food Service, Capital Projects, and Debt Service Fund.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

Financial Analysis as a Whole

All of SD7's services are reported in the government-wide financial statements, excluding agency funds. Instruction, support services, community services, intergovernmental, and interest and other charges are reported in the government-wide statements. Property taxes, state grants, operating grants and contributions, and investment earnings finance most of these activities. Additionally, all capital and debt financing activities are reported here.

Total assets at year-end increased \$50,956,036 or 15.9% above June 30, 2018 primarily due to an increase in construction in progress and buildings. At year end for governmental activities, net capital assets represented 72.1% of total assets.

Capital assets, net of depreciation increased \$70,235,072 or 36.3% above June 30, 2018. This increase was due to higher construction in progress amounts as our construction projects continue to grow, and the addition of buildings.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

Current liabilities increased \$2,391,409 or 10.1% due to an increase in Retainage Payable for the construction project of the new high school, and an increase in Accounts Payable and Accrued Interest Payable.

Long-term liabilities are comprised mainly of three components: general obligation bonds, capitalized leases and OPEB and pension liabilities. Long-term liabilities increased \$48,821,067 or 12.2% primarily due to the net OPEB liability reported by the District for its proportionate share measured as of June 30, 2018, and to the issuance of a GO bond and GO Bond Anticipation Note that will be utilized to fund construction related to the new high school project. Readers who desire more detailed information on the long-term debt activity and capital asset activity are directed to the notes to the financial statements for further information.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

Total revenues increased \$6,528,912 or 5.2% primarily due to an increase in the collections of property taxes.

Total expenses increased by \$1,122,128 or 0.86% as a result of additional instructional, support services costs, and an Intergovernmental payment to The Franklin School. These costs were primarily related to Elementary and Primary programs. These costs were also indicative of teacher salary and benefit increases.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

Capital Assets

At June 30, 2019 SD7 had \$263,683,888 invested in a broad range of capital assets, including land, buildings, building improvements, and equipment. The amount represents an increase (including additions, deductions and depreciation) of \$70,354,439 or 36.4% from fiscal year 2018.

Capital assets experienced an increase of \$70,354,439 primarily due to the construction in progress of the new high school. SD7 also purchased equipment and experienced an increase due to additions to buildings transferred from construction in progress to the District's fixed assets. If more information is desired about capital assets, detailed information is available in Note 3 to the Financial Statements.

Long term Debt and Capitalized Lease

As of June 30, 2019, SD7 had \$212,946,005 in total debt versus \$178,318,245 last fiscal year, an increase of 19.4%. This increase was primarily due to the issuance of a Bond Anticipation Note that will be utilized during the construction of a new high school. A summary of the long-term debt and capitalized lease obligations are listed in the following table. See Note 5 to the financial statements for additional information.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

SD7 maintains an Aa3 rating from Moody's for general obligation debt and AA- rating from Standard and Poor's this year. State statutes limit the amount of general obligation debt a governmental entity may issue up to 8% of its total assessed valuation. Bonded indebtedness authorized by a majority vote of the qualified electors of the school district voting in a referendum is not considered in the computation of the 8% limitation. \$182,130,000 exists in outstanding debt authorized through a referendum. The current debt limitation for SD7 exceeds \$17.6 million. Debt Service Millage for FY19 was 74.0 mills.

Supporting Services decreased \$1,103,800 versus an increase last fiscal year of \$4,366,921 primarily due to reduced expenditures in Food Service and Capital Projects.

Intergovernmental decreased by \$1,212,965 due to a \$1.5 million one-time payment of funds to another government organization last fiscal year.

Legal Services increased by \$86,834 due to cost of an issuance of a Bond Anticipation Note Sale.

Principal and Interest increased by \$84,530,575 and \$6,843,748 respectively.

Capital Outlay increased by \$1,931,214 primarily due to expenses related the construction of the new high school.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

General Fund

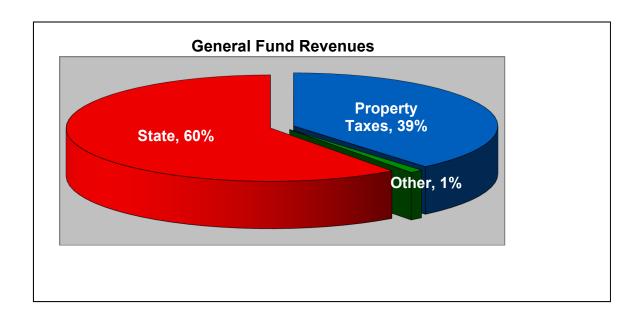

The general fund is the chief operating fund of SD7. At the end of the fiscal year 2019, unassigned fund balance of the SD7's general fund was \$13,054,723. Unassigned fund balance represents 18.5% of the total current year general fund expenditures.

The fund balance of the general fund increased by \$1,815,240 in fiscal year 2019 primarily due to purposeful and conservative budgeting. The receipt of additional state and local funding also contributed to an increase in the fund balance.

General Fund Expenditures

Expenditures for the general fund totaled \$70,406,009, an increase of \$1,931,674 from fiscal year 2018. Expenditures increased 2.8% primarily due to personnel associated costs of staff raises. General instruction accounts for 58.47% of general fund expenditures while support cost is 38.91%, which includes district support, school administrators, nursing, guidance, school media, transportation, curriculum, school psychologist, and professional development. Supporting services increased as well due to costs associated with staff salary increases and an increase in costs of operations and transportation.

Special Revenue Fund Expenditures

Expenditures for the special revenue funds were \$39,155,887, an increase of \$717,934 from fiscal year 2018. This increase is due primarily to staff raises and other employer paid benefits.

Fiduciary Funds

The school district is the trustee, or fiduciary, for assets that belong to others, such as student activity funds. SD7 is responsible for ensuring that the assets reported in these funds are used only for their intended purpose and by those to whom the assets belong. The school district excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

Other Funds

The Debt Service fund decreased by \$2,324,272 due to an increase in tax collections offset by transfers to Capital Projects fund for the proceeds of short-term bonds. The Capital Projects fund decreased by \$21,070,363 due to the smaller issuance of a General Obligation bond to support outlays for the new high school.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Economic Factors

Spartanburg County is located in the Northwestern Piedmont section of South Carolina. It is located at the "Crossroads of the New South": the intersection of interstates 85 and 26, two of the most traveled interstate highways in the United States. Spartanburg County has a land area of 808 square miles and population of 313,888 in 2018. Between 2015 and 2018, the population grew by 7% (Bureau of Economic Analysis). It is important to note that the largest area of Spartanburg School District 7 is comprised of the City of Spartanburg. The City of Spartanburg's population in 2018 was 37.644. Between 2015 and 2018, the population in the City of Spartanburg increased by 1.3% (S.C. Appalachian Council of Governments-City of Spartanburg Fact Sheet). The City of Spartanburg's population is directly correlated to the student enrollment within SD7. The district recognized this correlation and developed the budget ensuring efficient use of the district resources while focusing on student achievement. Between 2015 and 2018, approximately \$2.7 billion in capital investments were made in the county, a direct impact on county population growth. Spartanburg County has recognized the change from an agricultural and textile base to a new economic base, reflecting our diversity, with more than 80 international firms, representing 19 countries, which are a part of its industrial community including BMW. Spartanburg County has the highest per capita diversified foreign investment of any area in the country. The New York Times reports Spartanburg, South Carolina as having the highest per capita international investment in the nation. With the capital investments, the county and city's community outreach programs to increase the quality of life for the citizens of Spartanburg have increased proportionately. The district is using this growth as an opportunity to compliment public education.

Economic development in the city is equally important to the school district, impacting growth in the school district's tax base and stabilization of the district's student enrollment. The district has begun developing community partnerships throughout the city utilizing their programs and economic strengths to increase student achievement. In 2018, the city recorded \$3.124 billion in gross business sales and \$422.3 million in building permits were issued during fiscal year 2018.

Management's Discussion and Analysis (MD & A) For the Fiscal Year Ended June 30, 2019

This level of commerce among local businesses and not-for-profits has opened up recreational activities, mentoring, after-school programs, and adopt-a-school programs that continue to be essential to the success of SD7. Construction was completed on the \$43 million Chapman Cultural Arts Center in late 2007. The district is extensively using the center to enhance its related arts programs. Construction was completed in 2010 on the George Dean Johnson College of Business and Economics of the University of South Carolina Upstate. This \$30 million facility is located adjacent to the Chapman Cultural Center and serves over a thousand students each year. A variety of economic and business programs are continually held at this complex which affords great exposure to the City and the School District.

Budgetary Highlights

Annual budgets are prepared on a basis consistent with U.S. generally accepted accounting principles for the General Operating Funds. All annual unencumbered appropriations lapse at fiscal year-end. The appropriated budget is prepared by fund, account, and location.

In June 2018, the Board adopted a balanced budget for fiscal year 2019 that reflected total resources and annual appropriations of \$71.5 million. Actual general operating fund revenues/transfers in for fiscal year 2019 were \$73.6 million and actual general operating fund expenditures/transfers out were \$71.8 million. Actual revenues were higher than budgeted revenues primarily due to additional state funding and increased property tax collections. Actual expenditures came in lower than budgeted expenditures.

In June 2019, the Board adopted a balanced general fund budget for fiscal year 2019-2020 that reflected total resources of \$75.8 million.

SPARTANBURG COUNTY SCHOOL DISTRICT NO. 7 RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Total Net Change in Fund Balances - Governmental Funds

\$ (21,376,868)

Amounts reported for governmental activities in the statements of activities are different because of the following:

Interest is reported as an expenditure when due in the governmental funds, but is accrued on outstanding debt on the statement of activities.

(404,999)

80,837

\$

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The issuance of long-term debt increases long-term liabilities on the statement of net position and the repayment of principal on long-term debt reduces long-term debt on the statement of net position. Also, governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized over the term of the long-term debt in the statement of activities.

| The cost of pension benefits earned net of employee contributions is reported in the statement of activities as an element of pension expense. The governmental funds report pension contributions as expenditures. | (3,044,200) |
| The cost of OPEB benefits earned net of employee contributions is reported in the statement of activities as an element of OPEB expense. The governmental funds report OPEB contributions as expenditures. | (2,143,351) |
| Governmental funds report capital outlay as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which capital outlay of \$75,932,746 exceeded depreciation expense of \$5,534,983 in the current year. | 70,397,763 |
| Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the difference between the proceeds received from the sale of assets and the gain or loss on the sale. | (43,325) |
| Long-term debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. | (182,130,000) |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Spartanburg County School District No. 7 ("the District") is one of seven school districts in Spartanburg County, South Carolina. The District is governed by a nine member Board of Trustees and it has oversight responsibility and control over all activities related to public education within the District's boundaries.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies used by the District are described below.

B. Basic Financial Statements - Government-wide Financial Statements

The government-wide financial statements - the statement of net position and the statement of activities - display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include amounts paid by the recipient for the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

C. Basic Financial Statements - Fund Financial Statements

Fund financial statements report detailed information about the District. Their focus is on major funds rather than reporting funds by type. Each major governmental fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

The accounting and financial reporting applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Fiduciary funds are accounted for using the economic resources measurement focus and accrual basis of accounting.

The District's accounts are maintained on the basis of funds, each of which is considered a separate accounting entity. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to specific District functions or activities. The operation of each fund is accounted for within a separate set of self-balancing accounts.

C. Basic Financial Statements - Fund Financial Statements - Continued

Governmental fund types are those through which most government functions typically are financed. Governmental fund reporting also focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The District reports the following major governmental funds:

General Fund - The general fund is the general operating fund of the District. It accounts for all activities except those required to be accounted for in other funds.

Special Revenue Fund - The Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The District has the following special revenue funds:

- 1) McCarthy-Teszler School Fund is a special education facility that provides services to students from all seven Spartanburg County school districts by offering special instruction to students with certain disabilities. The fund is financed by local property taxes and payments from other LEAs. The school serves students from each of the seven districts of Spartanburg County.
- 2) Spartanburg County Alternative School Fund is designed to accommodate students in grades 6-12 within Spartanburg County who have experienced difficulty in the regular school settings. The goal of the alternative school is to assist the student in obtaining a high school diploma or G.E.D. The fund is financed by local property taxes and payments from other LEAs. The school serves students from each of the seven districts of Spartanburg County.
- 3) <u>Special Projects Fund</u> is used to account for financial resources provided by federal and state grants.
- 4) Education Improvement Act (EIA) Fund is used to account for the proceeds of the additional one percent sales and use tax revenues that are legally restricted to expenditures for the South Carolina Education Improvement Act of 1984 standards.
- 5) <u>Food Service Fund</u> is used to account for cafeteria operations at school locations. The fund is financed by user charges and subsidized by USDA school lunch and breakfast programs.

Debt Service Fund - The Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Projects Fund - The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Basic Financial Statements - Fund Financial Statements - Continued

Additionally, the District reports the following fund type:

Fiduciary Fund - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. The agency fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations. The District's only fiduciary fund is an agency fund:

1) <u>Pupil Activity Fund</u> - is used to account for student admissions, organization memberships, bookstore sales and other related receipts and disbursements held by the school in a trustee capacity on behalf of the students and/or District employees.

D. Measurement Focus and Basis of Accounting

Basis of accounting refers to when revenues and expenditures/expenses are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. The fund financial statements are prepared using either the modified accrual basis of accounting for the governmental fund types or the accrual basis of accounting for fiduciary fund types.

Revenue - Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recognized in the accounting period when they become both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period of the District is sixty days after year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been met. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

In applying the "susceptible to accrual concept" under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, investment earnings, tuition, grants and student fees.

Unearned Revenue

The District reports unearned revenue on its statement of net position and governmental funds balance sheet. In both the government-wide and governmental fund financial statements, resources received that are "intended to finance" a future period are reported as unearned revenue. In subsequent periods, the liability for unearned revenue is removed from the statement of net position and governmental funds balance sheet and revenue is recognized.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

D. Measurement Focus and Basis of Accounting - Continued

Expenditures/Expenses

On the accrual basis of accounting, expenses are recorded at the time they are incurred. The measurement focus of governmental fund accounting is on the flow of current financial resources. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred except for (1) principal and interest on general long-term debt, which is recorded when due, and (2) the costs of accumulated unpaid vacation and sick leave, which are reported as fund liabilities in the period in which they will be liquidated with available financial resources rather than in the period earned by employees.

E. Budget

The District legally adopts an annual budget for the General Fund, McCarthy-Teszler School, and the Spartanburg County Alternative School, prior to the beginning of each fiscal year. The Board of Trustees approve the budgets by a majority vote and the Chief Financial Officer is authorized to transfer budgeted amounts within functions throughout the year, as needed. Although not legally obligated to do so, the Board of Trustees also adopts an annual budget for the Debt Service Fund and Capital Projects Fund. The adopted budgets specifies expenditure limits appropriated to each function. All annual appropriations lapse at fiscal year-end. The budget is prepared on a basis consistent with U.S. generally accepted accounting principles, which is consistent with actual financial statement results, including significant accruals to provide meaningful comparisons.

F. Deposits and Investments

State statutes authorize the District to invest in (1) obligations of the United States and its agencies, (2) general obligations of the State of South Carolina and its subdivisions, (3) savings and loan associations to the extent of federal insurance, (4) certificates of deposit collaterally secured, (5) repurchase agreements secured by the foregoing obligations, and (6) the State Treasurer's Investment Pool.

Investments are stated at fair value. The fair value of the District's investments approximated cost.

G. Due from County Government

The County Government, fiscal agent for the District, receives monies from local, state and federal sources on behalf of the District. The monies held by the County Government are uninsured but collateralized with government investments held by the pledging institution's agent in the name of County. Market value approximates cost on the investments. These monies are remitted to the District once a claim has been presented to the County Government.

H. Taxes Receivable

Taxes receivable represents delinquent taxes being processed for collection by the Spartanburg County Delinquent Tax Office, originally assessed for District No. 7. Thirty percent of the delinquent taxes delivered each year to the Delinquent Tax Office are estimated to be collectible; the remainder is considered to be uncollectible and, accordingly, an allowance for the uncollectible amounts has been recorded.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

I. Ad Valorem Taxes

The District's property taxes (except vehicles) are levied by the Spartanburg County Auditor each fall on the assessed valuation of the property located in the District as of the preceding January 1. The tax books are open for collection September 1, with the first penalty of 3% applied to payments made after January 15, the due date. An additional penalty of 7% is charged for payments made after January 31. Uncollected property taxes attach as an enforceable lien on January 1. Uncollected property taxes as of March 15 are transferred to the Spartanburg County Delinquent Tax Collector at which time an additional 5% penalty is assessed. Spartanburg County bills and collects the District's property taxes.

The assessed valuation of property in Spartanburg County for District No. 7 for 2018 was \$209,571,814. In addition, the District billed fees in lieu of taxes on assessed value of \$3,762,420. The millage rate charged for the School District was 184.8 for current operations, and 74.0 for debt service.

The millage rate charged for the McCarthy-Teszler School (operated at the Charles Lea Center, a facility for disabled and special need persons), based on countywide assessed valuation of \$1,181,980,591 was 11.4 mills. Also, the millage rate charged for the Spartanburg County Alternative School (which the District is the fiscal agent) is 3.8 mills. In addition, McCarthy Teszler and Spartanburg County Alternative School billed fees in lieu of taxes on assessed value of \$124,414,526.

J. Inventory and Prepaid Items

Inventories are presented at the lower of cost or market using the first in, first out (FIFO) method and are expensed when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

K. Capital Assets and Depreciation

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their estimated acquisition value as of the date received. The District follows the policy of not capitalizing assets with a cost of less than \$5,000. The District does not possess any infrastructure.

All reported capital assets except land and construction in progress are depreciated. Construction projects are depreciated once they are complete, at which time the complete costs of the project are transferred to the appropriate capital asset category. Depreciation is computed using the straight-line method over the following useful lives:

| Description | Useful Life |
|----------------------------|-----------------|
| Land | not depreciated |
| Buildings and improvements | 20-40 years |
| Furniture and equipment | 3-12 years |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

L. Interfund Transactions

Interfund transactions are reported either as loans, services provided, reimbursements, or transfers. Loans are reported as due to/from other funds, as appropriate, and are subject to elimination in the government-wide financial statements. Services provided are treated as revenues and expenditures. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds are eliminated in the government-wide financial statements.

M. Vacation and Sick Pay

In accordance with state law, the District allows employees to accumulate a maximum of ninety days sick leave. Accumulated sick leave is transferable to other school districts. During an illness, an employee continues to receive full pay for each day of accumulated sick leave. If an employee leaves the employment of the District, any unused sick leave is not paid. Because of the nonvesting of sick leave and other uncertainties, no estimate of any potential liability has been made.

Two weeks of vacation is given to all 12-month employees. Vacation is noncumulative and employees are not paid for unused vacation days. Therefore no provision for liability has been made.

N. Accrued Liabilities and Long-term Debt

All payables, accrued liabilities and long-term debt are reported in the government-wide financial statements.

In general, accounts payable and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after yearend are considered to have been made with current available resources. Long-term debt paid from governmental funds is not recognized as a liability in the fund financial statements until due.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Amortizations of premiums and discounts are included in interest expense. Bonds payable are reported net of the applicable unamortized bond premiums or discounts.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period.

O. Deferred Outflows and Inflows of Resources

In the government-wide financial statements, in addition to assets and liabilities, separate sections for deferred outflows and deferred inflows of resources are reported. Deferred outflows of resources represent a consumption of net position that applies to future periods and will not be recognized as an expenditure until then. Deferred inflows of resources represent an acquisition of net position that applies to future periods and will not be recognized as revenue until that time. The District's deferred outflows and inflows of resources are related to pensions, OPEB and deferred loss on refunding from prior years.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

P. Retirement Plans

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions and pension expense, information about the fiduciary net position of the South Carolina Retirement Systems and additions to/deductions from the SCRS' fiduciary net position have been determined on the accrual basis of accounting as they are reported by the SCRS in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

Q. Other Post-Employment Benefit (OPEB) Plan

For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the OPEB Trusts, and additions to and deductions from the OPEB Trusts fiduciary net position have been determined on the same basis as they were reported by the OPEB Trusts. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Therefore, benefit and administrative expenses are recognized when due and payable. Investments are reported at fair value.

R. Governmental Fund Balance Classifications

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable - This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified inventories, and prepaid items as being nonspendable as these items are not expected to be converted to cash or are not expected to be converted to cash within the next current year.

Restricted - This classification includes amounts for which constraints have been placed on the use of the resources through either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Committed - This classification includes amounts that can only be used for specific purposes pursuant to constraints determined by a formal action of the government's highest level of decision making authority. The Board of Trustees is the highest level of decision-making authority for the government and the formal action they take that can commit fund balance is a majority vote (highest level of decision making authority). These amounts cannot be used for any other purpose unless the Board of Trustees removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

R. Governmental Fund Balance Classifications - Continued

Assigned - This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Trustees or an official to which the Board delegates authority. By a majority vote, the Board of Trustees has delegated this authority to the Superintendent. The authorization to assign fund balance can be found in the District's fund balance policy. This classification also includes the remaining positive fund balance for all governmental funds, except for the General Fund, as governed by the State Department of Education.

Unassigned - This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balances of any other governmental fund that cannot be eliminated by the offsetting of assigned fund balance amounts.

Spending Policy

The District would typically use restricted fund balances first, followed by committed resources and the assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first and to defer the use of these other classified funds. Where applicable, these classifications are presented on the face of the governmental fund balance sheet.

Minimum Unassigned Fund Balance

The District will construct its budget so as to provide for an adequate general fund reserve. The purpose of such a fund is to have reserves adequate to avoid excessive borrowing, prevent cash flow disruptions and demonstrate financial responsibility. The district will maintain a minimum unassigned fund balance in its general fund of twelve percent of current year budgeted expenditures, including transfers. Any excess over the twelve percent reserve calculation, using the prior year audited reserve as a base, may be transferred to the district building fund for facility needs or the debt service fund for payment of debt. Such a transfer to either or both funds will be estimated and budgeted in each year's current operating budget.

S. Net Position

Net position represents the difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Outstanding debt that has not been spent is included in the same net position component as the unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

T. Restricted Sources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as needed.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

U. Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

V. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchases its general liability, property, and employee health and accident, and workmen's compensation insurance from various commercial insurance carriers.

The District has elected to be "self-insured" for unemployment taxes, whereby it would reimburse the South Carolina Employment Security Commission for actual claims paid attributable to service in the employ of the District. No separate liability for unemployment claims has been established due to the insignificant amounts of the expenditures.

There have been no significant reductions in insurance coverage from the prior year. There were no settlements of claims have not exceeded insurance coverage for each of the past three years.

NOTE 2 - CASH AND INVESTMENTS

Cash

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has no formal policy regarding custodial credit risk for deposits.

As of June 30, 2019, the District's cash deposits were as follows:

| | Carrying | Bank |
|-----------------|--------------|--------------|
| | Amount | Balance |
| | | |
| Demand deposits | \$ 6,799,882 | \$ 8,277,828 |

Of the District's bank balance, \$276,900 was covered by FDIC insurance and \$8,000,928 was collateralized by securities held by the pledging bank's trust department or agent in the District's name.

Investments

The District's investments are categorized within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTE 2 - CASH AND INVESTMENTS - CONTINUED

As of June 30, 2019, the District's investments has the following recurring fair value measurements (Level 1 inputs):

| | <u>Fair Value</u> | <u>Maturity</u> | Rating |
|---|-------------------|-----------------|--------|
| Morgan Stanley Institutional Government Portfolio | \$ 1,000,383 | <30 days | AAAm |

Interest rate risk is the risk that the market value of securities in the portfolio will fall due to changes in the market interest rates. The District's policy is to minimize interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market, and investing operating funds primary in shorter-term securities, liquid asset funds, money market funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Custodial credit risk is the risk that, in the event of a failure of the counterparty, the District may not be able to recover the value of investments, or collateral securities that are in the possession of an outside party. The District's policy is to minimize custodial credit risk by limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealer, intermediaries, and advisors with which the District will do business.

Concentration of credit risk is the risk of loss attributable to the magnitude of the District's investment single issuer. This risk is mitigated by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. The District's policy is to minimize the concentration of credit risk by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Investments in Local Government Investment Pool

South Carolina Pooled Investment Fund ("SC Pool") investments are invested with the South Carolina State Treasurer's Office, which established the South Carolina Pool pursuant to Section 6-6-10 of the South Carolina Code. The SC Pool is an investment trust fund, in which public monies in excess of current needs, which are under the custody of any city treasurer or any governing body of a political subdivision of the State, may be deposited. The SC Pool is a 2a 7-like pool, which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but has a policy that it will operate in a manner consistent with the SEC's Rule 2a 7 of the Investment Company Act of 1940. Investments are carried at fair value and determined annually based upon quoted market prices in active markets for identical assets. The total fair value of the Pool is apportioned to the entities with funds invested on an equal basis for each share owned, which are acquired at a cost of \$1.00. Funds may be deposited by Pool participants at any time and may be withdrawn upon 24 hours' notice.

As of June 30, 2019, the District's investments in the Local Government Investment Pool were as follows:

| | <u>Fair Value</u> | <u>Maturity</u> | <u>Rating</u> |
|---------------------------------------|-------------------|-----------------|---------------|
| South Carolina Pooled Investment Fund | \$ 15,391,034 | <60 davs | Not Rated |

NOTE 3 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2019 is as follows:

Arbitrage is the difference between the yield on an issuer's tax exempt bonds and the investment income earned on the proceeds. Arbitrage restrictions imposed by the federal government prohibit an issuer from retaining arbitrage profits when investing bond proceeds at a yield that exceeds the yield on the bonds. Any excess arbitrage must be rebated to the U.S. Treasury.

The District is required to have an arbitrage rebate calculation performed every five years and to rebate any arbitrage earnings in excess of the bond yield to the federal government. As of June 30, 2019, the District had no arbitrage rebate liability.

There are a number of limitations and restrictions contained in the various debt instruments. The District is in compliance with all significant limitations and restrictions including the legal debt limit imposed by Article X, Section 15 of the Constitution of the State of South Carolina, 1895, as amended.

Bonds in the governmental funds will be retired by future property tax levies accumulated by the Debt Service Fund. As of June 30, 2019, \$3,988,941 was available in the Debt Service Fund to service the general long-term debt.

Capital Leases

The District entered into a lease purchase agreement structured as to qualify as a Qualified Zone Academy Bond (QZAB) for renovations and technology projects, at 0% interest, due on December 8, 2021. Under terms of the agreements, the District is required to irrevocably place cash into a trust that will be used solely for the retirement of the QZAB.

NOTE 5 - LONG-TERM OBLIGATIONS - CONTINUED

The District's required sinking fund payments along with the trusts' accumulated earnings ultimately liquidate the liabilities at the QZABs' respective maturities. As the District makes trust sinking fund payments and as the trust accrues earnings, the QZAB liabilities are considered in-substance defeased, and the liabilities are removed from the District's books.

The District's required sinking fund payments and accrued earnings defeased at June 30, 2019 are as follows:

Equipment totaling \$1,141,000 have been purchased with the proceeds from the capital lease and are being depreciated over their estimated useful lives. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements for the governmental funds.

NOTE 6 - RETIREMENT PLANS

A. South Carolina Retirement System

Plan Description - The District, as the employer, participates in the South Carolina Retirement System (SCRS) Plan - a cost-sharing multiple-employer defined benefit pension plan administered and managed by the South Carolina Public Employee Benefit Authority (PEBA), a state agency. PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR that is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223.

Benefits Provided/Membership - SCRS provides retirement and other benefits for employees of the state, its public school districts, and political subdivisions. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws, and PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current year salary.

NOTE 6 - RETIREMENT PLANS - CONTINUED

A. South Carolina Retirement System - Continued

This plan covers general employees, teachers and individuals newly elected to the South Carolina General Assembly beginning with November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit.

An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years.

Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of 1% or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

As an alternative to membership in SCRS, newly hired state, public school, and higher education employees and individuals newly elected to the S.C. General Assembly beginning with the November 2012 general election have the option to participate in the State Optional Retirement Program (State ORP), which is a defined contribution plan. State ORP participants direct the investment of their funds into a plan administered by one of four investment providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the investment providers. For this reason, State ORP programs are not part of the retirement systems' trust funds for financial statement purposes.

Contributions - Contributions are prescribed in Title 9 of the South Carolina Code of Laws. If the scheduled employee or employer contributions provided in statute, or the rates last adopted by the Board are insufficient to maintain the amortization period set in statute, the Board shall increase employer contribution rates, as necessary.

After June 30, 2027, if the most recent actuarial valuation of the SCRS for funding purposes shows a ratio of the actuarial value of the System's assets to the actuarial accrued liability of the System (the funded ratio) that is equal to or greater than 85%, then the Board, effective on the following July 1st, may decrease the current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85%. The Retirement System Funding and Administration Act establishes a ceiling on employee contribution rates at 9%. The employer contribution rates will continue to increase annually by 1% through July 1, 2022. The legislation's ultimate scheduled employer rate is 18.56%. The amortization period is scheduled to be reduced one year for each of the next 10 years to a 20 year amortization period. Required employee (both Class II and III) contribution rates for the year ended June 30, 2019 was 9%. The required employer contribution rates for the year ended June 30, 2019 was 14.41%. Both required employee and employer contribution rates are calculated on earnable compensation, as defined in Title 9 of the South Carolina Code of Laws. Employers also contribute an additional .15% of earnable compensation, if participating in the death benefit program.

NOTE 6 - RETIREMENT PLANS - CONTINUED

A. South Carolina Retirement System - Continued

Employee and employer contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employers to the member's account with investment providers for the employee contribution (9.0%) and a portion of the employer contribution (5%). A direct remittance is also required to SCRS for the remaining portion of the employer contribution (9.41%) and an incidental death benefit contribution (.15%), if applicable, which is retained by SCRS.

Contributions to the Plan from the District were \$7,890,257.

Pension Liabilities, Pension Expense, and Deferred Outflows (Inflows) of Resources Related to Pensions - At June 30, 2019, the District reported a net pension liability of \$123,591,814 for its proportionate share of the collective net pension liability. The net pension liability was measured as of June 30, 2018. The total pension liability, net pension liability and sensitivity information are based on an actuarial valuation performed as of July 1, 2017. The total pension liability was rolled-forward from the valuation date to the plan's fiscal year end June 30, 2018, using generally accepted actuarial principles. The allocation of the District's proportionate share of the collective net pension liability and pension expense were calculated on the basis of the District's contributions actually remitted to the plan relative to the total contributions remitted to the plan for all participating employers, less employer contributions that are not representative of future contribution efforts, as of June 30, 2018. Based upon this information, the District's proportion of the collective net pension liability is 0.551581%, an increase of 0.001478% since June 30, 2017, the prior measurement date.

For the year ended June 30, 2019, the District recognized pension expense of \$10,911,570. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to the pension from the following sources:

| | Deferred Outflows of Resources | | Deferred Outflows of Resources Resources | |
|---|-----------------------------------|------------|--|-----------|
| Differences between expected and actual experience | \$ | 223,098 | \$ | 727,304 |
| Changes in assumptions | | 4,903,432 | | - |
| Net difference between projected and actual earnings on pension plan investments | | 1,963,258 | | - |
| Changes in proportion and differences between District contributions and proportionate share of contributions | | 227,462 | | 1,456,025 |
| District contributions subsequent to the measurement date | | 7,890,257 | | |
| Total | \$ | 15,207,507 | \$ | 2,183,329 |

Deferred outflows of resources of \$7,890,257 related to pensions resulted from District contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Any other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions – Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision, as actual results are compared to past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the System was most recently issued for the period ending July 1, 2015.

The June 30, 2018 total pension liability, net pension liability, and sensitivity information determined by the July 1, 2017 valuation, which used the following actuarial assumptions and methods:

Actuarial cost method Entry age normal

Inflation 2.25%

Salary increases 3.0% to 12.5% (varies by service

and includes 2.25% inflation)

Benefit adjustments lesser of 1% or \$500 annually Investment rate of return 7.25% (includes 2.25% inflation)

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina mortality table (2016 PRSC), were developed using the Systems' mortality experience. The base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

The long-term expected rate of return on pension plan investments is based upon the 30 year capital market assumptions. The long-term expected rates of return represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees. Expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation, and is summarized in the following table. For actuarial purposes, the 7.25% assumed annual investment rate of return used in the calculation of the total pension liability includes 5.00% real rate of return and a 2.25% inflation component.

Discount Rate - The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS will be made based on actuarially determined rates based on the provisions of the South Carolina State Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the collective net pension liability calculated using the discount rate of 7.25%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1% lower (6.25%) or 1% higher (8.25%) than the current rate:

Pension Plan Fiduciary Net Position - Detailed information regarding the fiduciary net position of the plan, administered by PEBA, is available in the Systems' audited financial statements for the fiscal year ended June 30, 2018 (including the unmodified opinion on the financial statements). Information about he fiduciary net position of the System and additions to/deductions from the System's fiduciary net position have been determined on the accrual basis of accounting. Additional actuarial information is available in the accounting and financial reporting actuarial valuation as of June 30, 2018. The additional information is publically available on PEBA's Retirement Benefits' website at www.peba.sc.gov.

B. South Carolina Police Officers Retirement System

Plan Description - The District, as the employer, participates in the South Carolina Police Officers Retirement System (PORS) Plan - a cost-sharing multiple-employer defined benefit pension plan administered and managed by the South Carolina Public Employee Benefit Authority (PEBA), a state agency. PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223.

NOTE 6 - RETIREMENT PLANS - CONTINUED

B. South Carolina Police Officers Retirement System - Continued

Benefits Provided/Membership - PORS provides retirement and other benefits for police officers and firemen of the state and its political subdivisions. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty. Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws, and PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws.

To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary.

An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of 1% or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions - Contributions are prescribed in Title 9 of the South Carolina Code of Laws. If the scheduled employee or employer contributions provided in statute, or the rates last adopted by the Board, are insufficient to maintain the amortization period set in statute, the Board shall increase employer contribution rates, as necessary.

After June 30, 2027, if the most recent actuarial valuation of the PORS for funding purposes shows a ratio of the actuarial value of the System's assets to the actuarial accrued liability of the System (the funded ratio) that is equal to or greater than 85%, then the Board, effective on the following July 1st, may decrease the current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85%. The Retirement System Funding and Administration Act establishes a ceiling on employee contribution rates at 14.75%. The employer contribution rates will continue to increase annually by 1% through July 1, 2022. The legislation's ultimate scheduled employer rate is 21.24%. The amortization period is scheduled to be reduced one year for each of the next 10 years to a 20 year amortization period. Employees and employers (both Class II and III) are required to contribute 9.75% and 16.84%, respectively, of earnable compensation for the year ended June 30, 2019. Employers also contribute an additional .20% of earnable compensation in the incidental and/or accidental death benefit program, respectively.

Contributions to the Plan from the District were \$8,026.

Pension Liabilities, Pension Expense, and Deferred Outflows (Inflows) of Resources Related to Pensions - At June 30, 2019, the District reported a net pension liability of \$221,395 for its proportionate share of the collective net pension liability. The net pension liability was measured as of June 30, 2018. The total pension liability, net pension liability and sensitivity information are based on an actuarial valuation performed as of July 1, 2017. The total pension liability was rolled-forward from the valuation date to the plan's fiscal year end June 30, 2018, using generally accepted actuarial principles. The allocation of the District's proportional share of the collective net pension liability and pension expense were calculated on the basis of the District's contributions actually remitted to the plan relative to the total contributions remitted to the plan for all participating employers, less employer contributions that are not representative of future contribution efforts, as of June 30, 2018. Based upon this information, the District's proportion of the collective net pension liability is 0.007813%, a decrease of 0.000857% since June 30, 2017, the prior measurement date.

For the year ended June 30, 2019, the District recognized pension expense of \$29,061. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to the pension from the following sources:

| G | Deferred Outflows of Resources | | rred Inflows of Resources |
|---|--------------------------------|--------|------------------------------|
| Differences between expected and actual experience | \$ | 6,822 | \$ - |
| Changes in assumptions | | 14,598 | - |

| District contributions subsequent to the measurement date | | 8,026 | <u>-</u> |
| Total | \$ | 40,716 | \$ 24,213 |

Deferred outflows of resources of \$8,026 related to pensions resulted from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Any other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions – Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision, as actual results are compared to past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the System was most recently issued for the period ending July 1, 2015.

The June 30, 2018 total pension liability, net pension liability, and sensitivity information is determined by the July 1, 2017 valuation, which used the following actuarial assumptions and methods:

Inflation 2.25%

Salary increases 3.5% to 9.5% (varies by service

and includes 2.25% inflation)

Benefit adjustments lesser of 1% or \$500 annually Investment rate of return 7.25% (includes 2.25% inflation)

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina mortality table (2016 PRSC), were developed using the Systems' mortality experience. The base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

The long-term expected rate of return on pension plan investments is based upon the 30 year capital market assumptions. The long-term expected rates of return represent assumptions developed using an arithmetic building block approach primarily based on consensus expectation and market based inputs. Expected returns are net of investment fees. Expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation, and is summarized in the following table. For actuarial purposes, the 7.25% assumed annual investment rate of return used in the calculation of the total pension liability includes 5.00% real rate of return and a 2.25% inflation component.

Discount Rate - The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in PORS will be made based on actuarially determined rates based on the provisions of the South Carolina State Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position - Detailed information regarding the fiduciary net position of the plan, administered by PEBA, is available in the Systems' audited financial statements for the fiscal year ended June 30, 2018 (including the unmodified opinion on the financial statements). Information about the fiduciary net position of the System and additions to/deductions from the System's fiduciary net position have been determined on the accrual basis of accounting. Additional actuarial information is available in the accounting and financial reporting actuarial valuation as of June 30, 2018. The additional information is publically available through PEBA's Retirement Benefits' website at www.peba.sc.gov.

NOTE 7 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN

OPEB Plan Description - The District, as the employer, participates in the South Carolina Retiree Health Insurance Trust Fund (SCRHITF) - a cost-sharing multiple-employer defined benefit plan, for the purpose of providing post-employment health and dental benefits to retired State and school district employees and their covered dependents. The plan is administered and managed by the South Carolina Public Employee Benefit Authority (PEBA), a state agency. This information is publicly available through the Insurance Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223.

Benefits Provided - The SCRHITF is a healthcare plan that covers retired employees of the State of South Carolina, including all agencies and public school districts. The SCRHITF provides health and dental insurance to eligible retirees. Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires beginning employment May 2, 2008 and after, retirees are eligible for benefits if they have established 25 years of service for 100% employer funding and 15-24 years of service for 50% employer funding.

Contributions - Section 1-11-710 of the South Carolina Code of Laws of 1976, as amended, requires the post-employment benefits to be funded through non-employer and employer contributions for active employees and retirees to the PEBA-Insurance Benefits. Non-employer contributions consist of an annual appropriation by the General Assembly and the statutorily required transfer from PEBA-Insurance Benefits reserves.

The SCRHITF is funded through participating employers that are mandated by State statute to contribute at a rate assessed each year by the Department of Administration Executive Budget Office on active employee covered payroll. The covered payroll surcharge for the year ended June 30, 2018 was 5.50 percent. The South Carolina Retirement System collects the monthly covered payroll surcharge for all participating employers and remits it directly to the SCRHITF. Other sources of funding for the SCRHITF also include the implicit subsidy, or age-related subsidy inherent in the healthcare premiums structure. The implicit subsidy represents a portion of the health care expenditures paid on behalf of the employer's active employees.

For purposes of GASB Statement No. 75, this expenditure on behalf of the active employee is reclassified as a retiree health care expenditure so that the employer's contributions towards the plan reflect the underlying age-adjusted, retiree benefit costs. Non-employer contributions include the mandatory transfer of accumulated PEBA – Insurance Benefits' reserves and the annual appropriation budgeted by the General Assembly. It is also funded through investment income.

In accordance with part (b) of paragraph 69 of GASB Statement No. 75, participating employers should recognize revenue in an amount equal to the District's proportionate share of the change in the collective net OPEB liability arising from contributions to the OPEB plan during the measurement period from non-employer contributing entities for purposes other than the separate financing of specific liabilities to the OPEB plan. The amount of revenue recognized in the current fiscal year was \$734,585.

Contributions to the OPEB plan from the District during the current fiscal year were \$3,628,260, which is net of the implicit subsidy of \$10,779.

OPEB Liabilities, OPEB Expense, and Deferred Outflows (Inflows) of Resources Related to OPEB - At June 30, 2019, the District reported a net OPEB liability of \$97,331,655 for its proportionate share of the collective net OPEB liability. The net OPEB liability was measured as of June 30, 2018. The total OPEB liability, net OPEB liability and sensitivity information are based on an actuarial valuation performed as of June 30, 2017. The total OPEB liability was rolled-forward from the valuation date to the plan's fiscal year end June 30, 2018, using generally accepted actuarial principles.

NOTE 7 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN - CONTINUED

The allocation of the District's proportionate share of the collective net OPEB liability and collective OPEB expense were determined using the employer's payroll-related contributions over the measurement period, which is expected to be reflective of the employer's long-term contribution effort. Based upon this information, the District's proportion of the collective net OPEB liability is 0.686857%, an increase of 0.003128% since June 30, 2017, the prior measurement date.

For the year ended June 30, 2019, the District recognized OPEB expense of \$5,753,773. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | Deferred Outflows of Resources | | rred Inflows of Resources |
|---|--------------------------------|----|------------------------------|
| Differences between expected and actual experience | \$ 1,458,072 | \$ | 33,913 |

Deferred outflows of resources of \$3,628,260 related to OPEB resulted from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Any other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in pension expense as follows:

NOTE 7 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN - CONTINUED

Actuarial Assumptions – Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the net OPEB liability are subject to continual revision, as actual results are compared to past expectations and new estimates are made about the future. The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study performed for the South Carolina Retirement Systems for the 5-year period ending June 30, 2015.

The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method: Entry Age Normal

Inflation: 2.25%

Salary Increase: 3.5% to 12.5% (varies by service)

Retiree Participation: 79% for retirees eligible for funded premiums

Investment rate of return: 4.0%, net of OPEB Plan investment expense; includes inflation Healthcare cost trend rates: 4.0%, net of OPEB Plan investment expense; includes inflation Initial trend starting at 6.75% and gradually decreasing to an

ultimate trend rate of 4.15% over a period of 14 years

For healthy retirees, mortality rates were based on the 2016 Public Retirees of South Carolina Mortality Table for Males and Females, using fully generational mortality projections based on the Scale AA from the year 2016. Multipliers are applied to the base tables based on gender and employment type.

The long-term expected rate of return on OPEB plan investments represents assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. The expected returns, along with the expected inflation rate, form the basis for the target allocation adopted at the beginning of the 2017 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation. This information is summarized in the following table:

| | Target | Expected | Allocation-Weighted |
|------------------------------|------------|-----------------|---------------------|
| | Asset | Arithmetic Real | Long-Term Expected |
| Asset Class | Allocation | Rate of Return | Real Rate of Return |
| U.S. Domestic Fixed Income | 80% | 2.09% | 1.67% |
| Cash equivalents | 20% | 0.84% | 0.17% |
| Total | | | 1.84% |
| Expected Inflation | | | 2.25% |
| Total Return | | | 4.09% |
| | | | |
| Investment Return Assumption | | | 4.00% |

Discount Rate - The discount rate used to measure the total OPEB liability at June 30, 2018 was 3.62%, which is an increase from the previous year by 0.06%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on actuarially determined rates based on the provisions of the South Carolina State Code of Laws. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

OPEB Plan Fiduciary Net Position - Detailed information regarding the fiduciary net position of the plan, administered by PEBA, is available in the OPEB Trusts Fund audited financial statements for the fiscal year ended June 30, 2018 (including the unmodified opinion on the financial statements). Additional actuarial information is available in the accounting and financial reporting actuarial valuation as of June 30, 2017. The additional information is publically available through PEBA's Insurance Benefits' website at www.peba.sc.gov.

NOTE 8 - DEFERRED COMPENSATION PLANS

Several optional deferred compensation plans are available to the District's employees. The multiple-employer plans, created under Internal Revenue Code Sections 457 and 401(k) are accounted for by the State of South Carolina. Employees may withdraw the current value of their contributions when they terminate employment. With approval of the State's Deferred Compensation Commission, employees may also withdraw the current value of their contributions prior to termination of employment if they meet certain requirements. These requirements differ among the three plans. Compensation deferred under the Section 457 and 401(k) plans is placed in trust for the contributing employees. Neither the State nor the District has any liability for losses under the plans.

Interfund transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 10 - TAX ABATEMENTS

The District's general fund property tax revenues were reduced by \$150,596 under Fee in Lieu of Ad Valorem Tax (FILOT) agreements and Special Source Revenue Credits (SSRC) entered into by the County. The District received a total of \$714,596 under both FILOT and SSRC tax agreements for the fiscal year. Under the FILOT agreements, taxpayers receive a reduction in ad valorem property taxes through reduced assessed values and locked millage rates. Due to these agreements, the taxpayers realized a loss of \$31,335. Under the SSRC program, taxpayers receive a percentage reduction off their total property tax bill if their property qualified for the program. Due to this program, the taxpayers realized a benefit of \$181,931.

The District's debt service fund property tax revenues were reduced by \$133,788 under Fee in Lieu of Ad Valorem Tax (FILOT) agreements and Special Source Revenue Credits (SSRC) entered into by the County. The District received a total of \$214,803 under both FILOT and SSRC tax agreements for the fiscal year. Under the FILOT agreements, taxpayers receive a reduction in ad valorem property taxes through reduced assessed values and locked millage rates. Due to these agreements, the taxpayers realized a benefit of \$24,583. Under the SSRC program, taxpayers receive a percentage reduction off their total property tax bill if their property qualified for the program. Due to this program, the taxpayers realized a benefit of \$109,205.

McCarthy-Tezler School's property tax revenues were reduced by \$2,445,084 under Fee in Lieu of Ad Valorem Tax (FILOT) agreements and Special Source Revenue Credits (SSRC) entered into by the County. The District received a total of \$1,424,088 under both FILOT and SSRC tax agreements for the fiscal year. Under the FILOT agreements, taxpayers receive a reduction in ad valorem property taxes through reduced assessed values and locked millage rates. Due to these agreements, the taxpayers realized a benefit of \$1,652,339. Under the SSRC program, taxpayers receive a percentage reduction off their total property tax bill if their property qualified for the program. Due to this program, the taxpayers realized a benefit of \$792,745.

Spartanburg County Alternative School's property tax revenues were reduced by \$815,028 under Fee in Lieu of Ad Valorem Tax (FILOT) agreements and Special Source Revenue Credits (SSRC) entered into by the County. The District received a total of \$474,696 under both FILOT and SSRC tax agreements for the fiscal year. Under the FILOT agreements, taxpayers receive a reduction in ad valorem property taxes through reduced assessed values and locked millage rates. Due to these agreements, the taxpayers realized a benefit of \$550,780. Under the SSRC program, taxpayers receive a percentage reduction off their total property tax bill if their property qualified for the program. Due to this program, the taxpayers realized a benefit of \$264,248.

NOTE 11 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES AND COMMITMENTS

Total contractual commitments of the Capital Projects Fund at June 30, 2019 are as follows:

| Project | Co | ontract Amount | Job to Date Expenditures | Outstanding ommittments |
|---|----|--------------------------|--------------------------------|----------------------------|
| New High School Duncan Park Baseball Stadium | \$ | 132,038,489 2,059,504 | \$ 108,463,826 2,009,916 | \$ 23,574,663 49,588 |
| Burloan Fark Busesan Gladian | \$ | 134,097,993 | \$ 110,473,742 | \$ 23,624,251 |

Various claims and lawsuits are pending against the District. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the District's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the District.

NOTE 11 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES AND COMMITMENTS - CONTINUED

The District has received proceeds from Federal and State grants, and/or entitlements. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant monies.

NOTE 12 - RELATED ORGANIZATION

These financial statements exclude Daniel Morgan Technology Center. The Center operates a technology school which is jointly governed by Spartanburg County School District No. 3 and Spartanburg County School District No. 7. Three members of District Seven's Board of Trustees serve as board members of the Center. District Three serves as the fiscal agent of the Center, therefore the superintendent of District Three is an exofficer non-voting member of the Board of Daniel Morgan Technology Center. District Seven remits a portion of their Education Finance Act monies to the Center to cover the educational costs of the District's students attending the Center. For the year ended June 30, 2019, \$169,725 was recorded as General Fund expenditures.

NOTE 13 - PRIOR PERIOD ADJUSTMENT

The accompanying government-wide financial statements reflect adjustments resulting from a restatement of beginning net position as of June 30, 2018. A net decrease to net position of \$119,367 was to reflect adjustments to capital assets. Capital assets in the amount of \$489,172, with accumulated depreciation of \$38,408, were erroneously placed into service from construction in progress in the prior year. In addition, \$157,775 of that equipment was for assets under the District's capitalization policy; and therefore, removed from construction in progress. The net effect of these items resulted in an overstatement of capital assets by \$119,367.

O - - - - - - - - - - - - 1

The following summarizes the effect of the adjustment to capital assets:

| | Activities |
|---|------------------------------|
| Net position at beginning of year, as previously reported Net decrease in capital assets | \$ (96,056,694) (119,367) |
| Net position at beginning of year, as adjusted | \$ (96,176,061) |

NOTE 14 - SUBSEQUENT EVENT

On October 31, 2018, the District issued a \$130,000,000 General Obligation Bond, Series 2019D, with an interest rate of 5.0% and a maturity date of March 1, 2048. The purpose of this long-term bond is to refinance the 2018 Bond Anticipation Note.

Management has evaluated subsequent events through November 11, 2019, the date on which the financial statements were available to be issued.

General Fund

To account for all financial resources except those required to be accounted for in another fund. All property taxes, intergovernmental revenues, and miscellaneous revenues are recorded in this fund except amounts which are specifically collected to service debt or for which the District collects other funds in a fiduciary capacity. Operational expenditures for general education, support services, and other departments of the District are paid through the General Fund.

The following individual fund statements and schedules have been prepared in the format mandated by the South Carolina Department of Education. The South Carolina Department of Education mandates the account numbers shown on the statements.

 $Single\ Audit$

The following information is related to the annual single audit including the schedule of federal assistance, findings and recommendations, and auditor's reports on the internal control structure and compliance with applicable laws and regulations.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

To the Board of Trustees of Spartanburg County School District No. 7 Spartanburg, South Carolina

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Spartanburg County School District No. 7 ("the District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 11, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Independent Auditor's Report

To the Board of Trustees of Spartanburg County School District No. 7 Spartanburg, South Carolina

Report on Compliance for Each Major Federal Program

We have audited Spartanburg County School District No. 7's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and guestioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Spartanburg County School District No. 7's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Spartanburg County School District No. 7 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

To the Board of Trustees of Spartanburg County School District No. 7 Page Two

Report on Internal Control over Compliance

Management of Spartanburg County School District No. 7 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
